Automatic Pet Feeder
Model MH10

Thank you for your purchase of this quality product – MH10 Automatic Pet Feeder. Please read this instruction manual carefully before using and keep this manual in a safe place for future reference. If you have any questions, kindly contact the local suppliers or distributors directly.

MH10 is an ideal automatic feeder for small and mddium size cats and dogs. You can preset the precise feeding time, feeding frequencies and feeding quantity of every day. It enables your loved pet being well taken care of when you are at home but no time to feed by hand, or when you leave home in a short period

Although this feeder can run continuously for a long time in a situation that the grain is filled fully, we strongly suggest you not to feed your pet only relying on this product when you are out of home for more than three days. At this time, for the sake of your pet's health, please bring your pet to the "Pet Hotel" of "Pet Service Centre" for a better care.

Features:
1. Only dry grain applicable for this feeder
2. Suitable for feeding middle and small size pets
3. About 10 lb. storage volume
4. 12 feeding times can be set each day and feeding volume can be adjustable.
5. Feeding days depend on the pet's eating capacity
6. Powered by alternative 4 x D size (UM-1) batteries (with low battery alarm) or a 6V DC adaptor
7. 3 times of 12-second records to remind pets to take food
8. Easily operating on an easy-reading panel
9. LCD screen displays time and feeding volume
10. Use "Test" key to check the set feeding volume
11. Accurate grain output in a screw-driving way to prevent from jamming
12. Moisture-proof, good and tight sealing to prevent insects from entering
13. Big storage volume with compact structure
14. Made of ABS, safe and nonpoisonous

Operation

A. Battery Installation
   1 Battery apartment locates at the bottom of the machine. Turn over the machine, open the battery cover and insert 4 x D size (UM-1) batteries (not included) into the apartment as the polarity indicated. Make sure that the batteries are in good contact, and then close the cover.
   2 6V DC Adaptor (not included) is optioned for the power supply.

Note 1: Do not mix new and old batteries. Do not mix alkaline, standard (carbon-zinc), or rechargeable (nickel cadmium) batteries.
Note 2: If you want to use an adaptor to supply the power of the machine, please buy a quality one.

B. Set Clock Time
   1 Press █ (Hour) key and █ (Minute) key to set time.
      (1) Press █ (Hour) key for 2 seconds, hour part is flashing; then press █ or █ key to set hour. After hour setting finished and hour part flashing stopped (about 2 seconds), go to the next setp setting.
      (2) Press █ (Minute) key for 2 seconds, minute part is flashing; then press █ or █

key to set minute. After minute setting finished and minute part flashing stopped (about 2 seconds), the whole clock enters into working state.

2   This LCD clock displays in 24 hour format, please pay attention to set AM or PM correctly.

C.   Set Feeding Time

1   Around the LCD display, there are 12 ON-OFF switches marked with 12 numbers. These 12 numbers stand for the setting time available. When you move any switch to "ON" position, the feeder will start supplying food at the corresponding time you set. For example, if you want to feed your pet at 6, 12 and 16 o'clock, move the corresponding switches to "ON" positions, When the clock goes to 6, 12 and 16 o'clock, the feeder will supply food accordingly.

2   If you don't want to feed your pet at a certain time, just move or keep the corresponding switch to "OFF" position.

D.   Record

Recording function is to remind your pet to take food when the machine replays the recorded voice at the set feeding time.

1   Press ▓ key to start recording, and meanwhile the blue LED light beside the ▓ key is flashing. Release ▓ key after recording.

2   The maximum recording time is 12 seconds.

3   Press ▶ key to check your recording is clear or not. If not clear, you can start a new recording as per Step 1. The later recording will cover the previous one.

4   For better recording, keep your mouth as close as possible to the microphone when you start recording. The microphone locates the right upper corner of the operating panel.

5   When the set feeding time is up, the machine will replay the record every 30 seconds to remind the pet to take food, three times totally.

E.   Fill Food

Open the cover on the top of the container, and then fill dry grain into container. The proper grain size is less than diameter 15m m.

F.   Set Feeding Amount

The number below the "QTY" on the display shows the feeding amount of each feeding.

1   Press ▲ or ▼ key for 2 seconds, the "QTY" part is flashing, press ▲ or ▼ key again to increase or decrease feeding amount, After the flashing stopped, feeding amount setting is finished.

2   Press ▓ key for 2 seconds to check the set feeding amount.

3   Make sure that the food tray is well replaced before testing.
